OUTCOMES OF ACTIVITY:

By the growth of IoT platform in various fields encourages the reduction of human life loss and damages to the properties caused by both natural and human-made disasters. The key advantage of IoT paved the way for dynamic safety with high level accuracy in performance and feasible nature data analytics. Adoption of new technology conveys the proper condition about the mishap. The response of the system is fast for the change in input. Thus, the study provides an IoT based monitoring and alerting of dam water level by using various past research contributions and issues remedy mechanisms which enables the smart warning technique for public safety.

ACTIVITY 2:

Activities in Ashrama and giving the awareness about the health

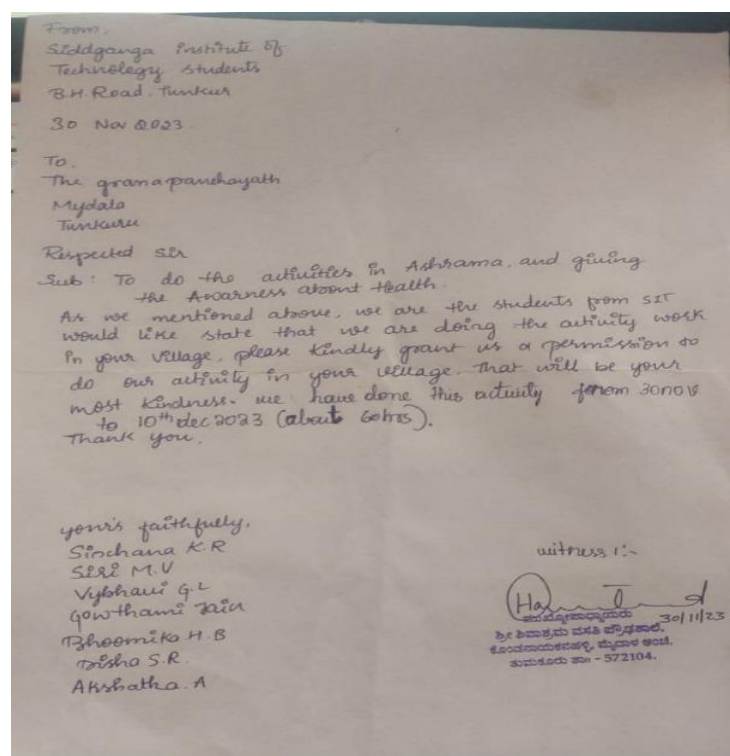

INTRODUCTION:

Visiting an ashram to teach students can be a fulfilling and enriching experience. Ashrams are often places of spiritual and educational learning, and your contribution can make a positive impact on the residents or students. Engage students through interactive sessions, discussions, and practical activities. Encourage questions and dialogue to foster a dynamic learning environment. Each ashram is unique, and communication is key to a successful visit. By respecting the ashram's environment, understanding the students' needs, and aligning your teachings with the ashram's ethos, you can create a positive and meaningful educational experience. Visiting an ashram to promote health awareness is a commendable initiative. It provides an opportunity to share valuable information about physical, mental, and spiritual well-being with the residents or visitors. Here are some tips on how to effectively communicate health awareness in an ashram setting. Building rapport and establishing a connection with the ashram community is essential for the success of your health awareness initiative. By integrating health messages with the ashram's ethos and respecting its cultural context, you can contribute to the overall well-being of the individuals in the community.

OBJECTIVE:

- Promoting Healthy Practices within Ashram Routine
- Spiritual Education
- Life Skills Development
- Community and Social Responsibility
- Mindfulness and Stress Reduction

PHOTOS OF THE ACTIVITY CONDUCTED:

OUTCOMES OF ACTIVITY:

- **Cultural and Spiritual Exposure:** Immersion in the ashram environment provides a unique opportunity for cultural and spiritual exposure. This experience can broaden perspectives and foster a deeper understanding of different ways of life.
- **Personal Growth:** Teaching in an ashram setting may contribute to personal growth by exposing educators to diverse philosophies, lifestyles, and spiritual practices. It can be a transformative experience that encourages self-reflection and development.
- **Enhanced Teaching Skills:** Adapting to the learning environment of an ashram may require innovative teaching methods. Educators may develop and refine their teaching skills, incorporating new approaches to cater to the specific needs and preferences of the students.
- **Networking Opportunities:** Educators may have the chance to network with other professionals, spiritual leaders, and individuals associated with the ashram. This can open up opportunities for collaboration and the exchange of ideas.
- **Cross-Cultural Communication:** Interacting with students from diverse backgrounds in an ashram setting facilitates cross-cultural communication. Teachers may develop cross-cultural competency and effective communication skills.
